Enter job title: Zookeeper
Enter job description: take care of Monke
Enter job ID (1-100): Please enter a number between 1 and 100: 1
Job posting added successfully!
```

-Option 4 will show the listing of that Job Posting (needs some minor adjustments)

```
Job Management System Menu:
1. Add Employee
2. List Employees
3. Add Job Posting
4. List Job Postings
5. Delete Job Posting
6. Edit Job Posting
7. Show Job Posting Statuses
8. Quit
Enter your choice: 4
[Job ID: 1
Job Title: Zookeeper
Description: take care of Monke
Job Type: take care of Monke
Job Location: take care of Monke
Job Schedule: take care of Monke
Can Submit: No]
```

-Option 6 will allow you to edit that Job Posting and Option 7 can show a status update on it.  
(definitely needs more depth as well and needs some minor fixes)

```
Job Management System Menu:
1. Add Employee
2. List Employees
3. Add Job Posting
4. List Job Postings
5. Delete Job Posting
6. Edit Job Posting
7. Show Job Posting Statuses
8. Quit
Enter your choice: 6
Enter the index of the job posting to edit (1-100): Please enter a number between 1 and 100: 1
Enter new job title: Monkey Trainer
Enter new job description: Train all zoo monkeys to program like real human.
Job posting edited successfully!
```

Job Management System Menu:

1. Add Employee
2. List Employees
3. Add Job Posting
4. List Job Postings
5. Delete Job Posting
6. Edit Job Posting
7. Show Job Posting Statuses
8. Quit

Enter your choice: 7

[Job ID: 1

Job Title: Monkey Trainer

Can Submit: No]

-Now I saved Option 5 so we could delete the posting and used Option 4 to show there is no more posting on the list.

Job Management System Menu:

1. Add Employee
2. List Employees
3. Add Job Posting
4. List Job Postings
5. Delete Job Posting
6. Edit Job Posting
7. Show Job Posting Statuses
8. Quit

Enter your choice: 5

Enter the index of the job posting to delete (1-100): Please enter a number between 1 and 100: 1

Job posting deleted successfully!

Job Management System Menu:

1. Add Employee
2. List Employees
3. Add Job Posting
4. List Job Postings
5. Delete Job Posting
6. Edit Job Posting
7. Show Job Posting Statuses
8. Quit

Enter your choice: 4

Job Management System Menu:

1. Add Employee
2. List Employees
3. Add Job Posting
4. List Job Postings
5. Delete Job Posting
6. Edit Job Posting
7. Show Job Posting Statuses
8. Quit

Enter your choice:

-Option 8 will close the program and tell you Goodbye!

```
Job Management System Menu:  
1. Add Employee  
2. List Employees
